### EDUCATION

#### Bachelor of Computer Applications

University of Madras  
2017 - 2020

### CERTIFICATIONS

- Full Stack Developer
- React.js Mastery

### TECHNICAL SKILLS

- Frontend Development
- Version Control & Collaboration Tools
- API & Backend Integration
- Testing & Debugging
- Digital Marketing
- Project Management

### PROFILE SUMMARY

Experienced Front-end Developer with 1.10 years in React.js and a strong background in JavaScript, CSS, HTML, Redux, Context API, and React Native.

Skilled in crafting dynamic, responsive web applications and enhancing site performance through regular maintenance and optimization.

Proficient with Ant Design (Antd) and Bootstrap.

Committed to staying current with emerging technologies and trends to drive innovation and create cutting-edge web solutions.

### TECHNICAL SKILLS

#### Frontend Development:

- HTML5, CSS3, JavaScript (ES6+), React.js, React Native, Bootstrap, Tailwind CSS, Material-UI, Ant Design
- UI/UX Design, Responsive Web Design, Webpack, Next.js

#### Version Control & Collaboration Tools:

- Git, GitHub, GitLab, Bitbucket

#### API & Backend Integration:

- RESTful APIs, Web APIs, Postman, Axios, SQL Server

#### Testing & Debugging:

- Jest, Mocha, Cypress, Chrome DevTools

#### More Skills:

- Digital Marketing: WordPress, Canva, Figma, Google Analytics, Google Ads
- Project Management: Agile, Scrum, Jira

## WORK EXPERIENCE

---

### Frontend Developer

ZSoft Consultancy Services | Chennai    Jun 2022 – Apr 2024

#### Tech Stack:

-  React.js, Redux, Context API, HTML5, CSS3, JavaScript, Bootstrap, Material UI, Ant Design, React Native, SQL Server
-  Developed highly responsive web applications, ensuring seamless user experience and performance optimization.
-  Translated wireframes and PSD designs into functional web interfaces using React.js, Ant Design, and Tailwind CSS.
-  Integrated front-end with RESTful APIs, ensuring secure and efficient data communication between backend systems.
-  Collaborated with cross-functional teams, including designers and backend engineers, to deliver optimal solutions.
-  Ensured high-quality code via peer reviews, continuous testing, and debugging, significantly reducing production issues.
-  Utilized Git for version control and managed development workflow with Agile methodologies.

## KEY ACHIEVEMENTS

---

-  Reduced page load times by 25% through code refactoring and performance optimization strategies.
-  Spearheaded an UI redesign that increased user engagement by 30%.
-  Implemented a robust state management system using Redux, improving data consistency across applications.

## PROJECTS

---

-  **Social Media Web App (Mar 2024)**
  - Tech Stack: React.js, Redux, Ant Design, Tailwind CSS
  - Built a fully responsive social media platform with features like authentication, real-time posts, and notifications.
  - Leveraged React.js and Tailwind CSS to build a clean, intuitive user interface. Managed global state with Redux for efficient data handling.
-  **Tamil Agarathi Web App (May 2024)**
  - Tech Stack: MERN Stack (MongoDB, Express.js, React.js, Node.js)
  - Developed an online Tamil dictionary platform using React.js and Node.js.
  - Integrated a REST API to connect front-end with back-end, ensuring efficient and secure data transactions.
  - Conducted testing using Postman and performed performance optimizations for a better user experience.
