Dubai

## EXPERIENCE

### Junior Frontend Developer

#### ZSoft Consultancy Services Pvt Ltd

01/2021 - 04/2024 Chennai

- Take the wireframes and design mockups provided by the UI/UX designers and turn them into interactive and responsive web pages using HTML, CSS, and JavaScript.
- Ensure that the design is consistent, visually appealing, and user-friendly.
- Use front-end technologies such as HTML, CSS, JavaScript, and ReactJS (Redux, Context) to write clean, efficient, and maintainable code to build user interfaces for the system.
- Integrate front-end and back-end systems for optimal performance.
- Use version control systems like Git to manage codebase changes and collaborate with other developers effectively.
- Testing and debugging the web application.
- Maintaining the security and performance of the web application.
- Participate in code reviews and maintain code quality.
- Implement and consume RESTful APIs.
- Test and debug RESTful APIs using Postman test scripts.

## EDUCATION

### Bachelor of Computer Application (BCA)

#### University of Madras

01/2017 - 01/2020 Chennai, Tamil Nadu

- BCA., Bachelor of Computer Application.** with 8.02/10 from University of Madras, Chennai, Tamil Nadu.

## CERTIFIED

#### Besant Technologies

09/2021 - 02/2022 Chennai

- Certification of Professional Achievement in Full Stack Developer.

## PROJECTS

### Tamil Agarathi

2023 Chennai

→ Built apps with MERN stack, React, and REST API integration.

- Develop web applications using the MERN stack (MongoDB, Express.js, React.js, and Node.js).
- Designing reusable components. Use Front End technologies such as HTML, CSS, JavaScript, ReactJS (Redux, Context). to create interactive and visually engaging elements of the dictionary.
- Implement REST API for communication between the front-end and back-end.
- Use the Postman test script to test the APIs.
- Continuously monitor and improve application performance.

### Frontend Social Media App

2024 Chennai

→ Built a social app with React, Antd, Tailwind, and JS

- HTML & CSS: Essential for structuring and styling responsive, clean web pages.
- Bootstrap, Tailwind, Ant Design & Material UI: Enable streamlined, customizable, and professional UI designs with pre-built components.
- JavaScript: Powers interactivity, handling login, validation, and dynamic content updates.
- React JS: Builds dynamic, single-page applications with a component-based structure.
- React Redux & React Router DOM: Manages global state and enables smooth page navigation.

## SUMMARY

Experienced Front-end Developer with 3.5 years in React.js and a strong background in JavaScript, CSS, HTML, Redux, Context API, and React Native. Skilled in crafting dynamic, responsive web applications and enhancing site performance through regular maintenance and optimization. Proficient with Ant Design (Antd) and Bootstrap. Committed to staying current with emerging technologies and trends to drive innovation and create cutting-edge web solutions.
